Kaymoor (NRG), West Virginia

Kaymoor is one of the most popular cliffs at the New River Gorge. The majority of the climbs are between 5.10 and 5.12, but the notorious "Hole" contains a few 13s.

How to get there: From Fayetteville (North of Beckley on I-19) take road 16 then shortly after town, make a left to go uphill on Gatewood Rd. After a 1.9 mile turn left at the "Kaymoor #1" sign. After one mile you'll see Roger's camping. Park a little further at the designated parking area.

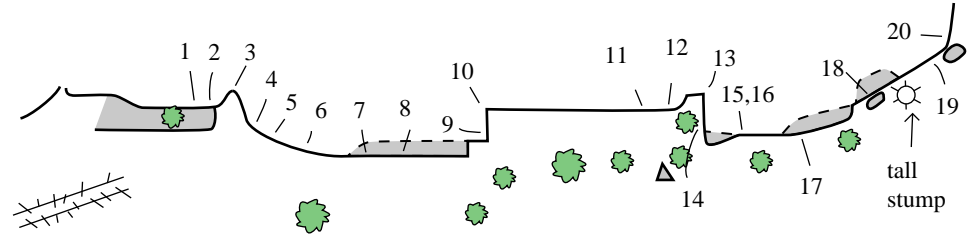

There are two main trails that leads to the cliff. The first trail starts from Roger's parking and will lead you to the First Buttress (you have to pay Roger a buck and he'll watch your car). The second trail starts from the other parking (free) and will lead you to the Butcher Branch.

When: Kaymoor stays in the shade and is a good place to go on warm days which means late spring, summer and early fall.

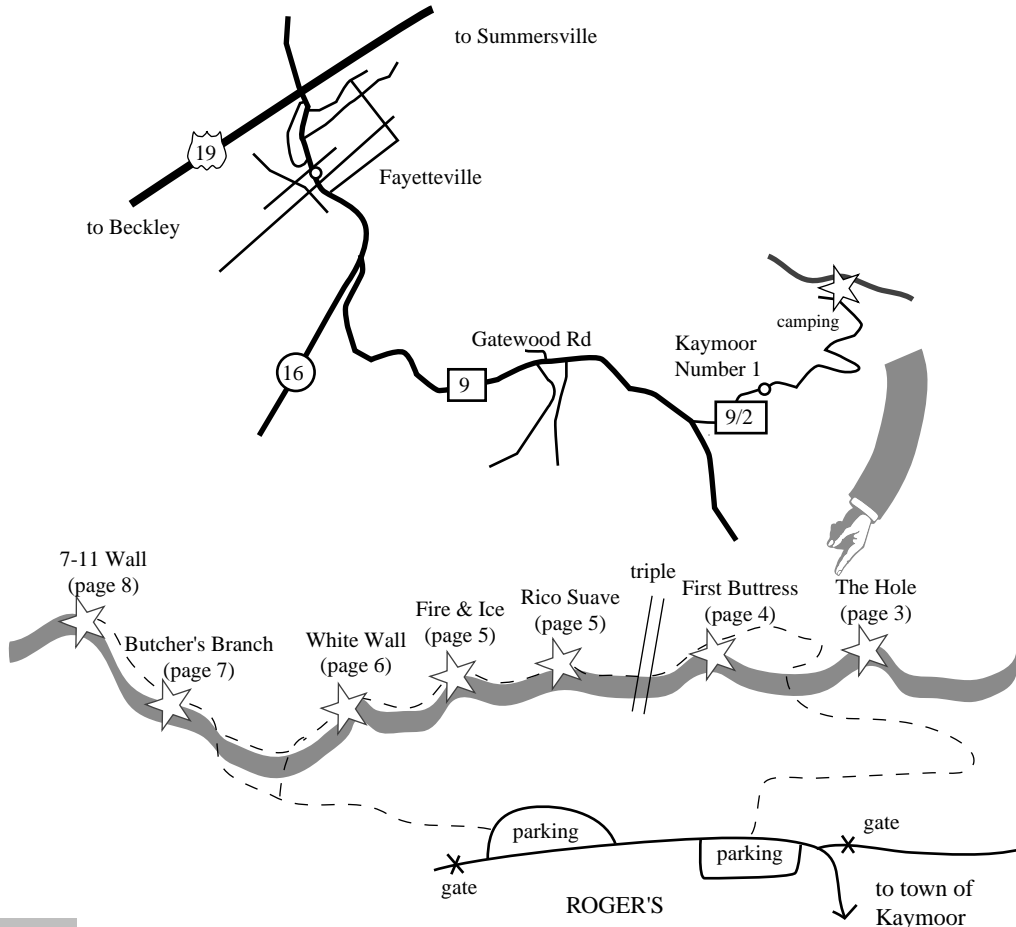

Sleep: Pay camping at Roger's.
